

K-LOVE radio is the only advertising-free Christian music station available to me. Along with many others, I donate money each month to have this Christian witness on the air. I listen exclusively to this station and am constantly inspired and connected to my God by the music and commentary they provide. I believe others who may not even be in relationship with God could hear this station and have their lives changed forever for the ultimate good. In my opinion, losing K-LOVE would be harmful to me personally and to my community as a whole.
